Col. Ingersoil Addresses the Convention on Protection-Adjournment Until 10 This Morning.

CHICAGO, June 23,-The California delegation had their plans completed long before the convention hour spproached this morning. The plan is a simple one, and is this: The name of James G. Blaine will not be put in nomination, but when the Golden State is reached it will cast its eighteen votes for the man from Maine.

Editor De Young, who speaks with authority, was seen by a reporter this morning. When asked what California proposed to do when called to vote for a nominee, he said: "I'll just tell you that in a very few words. California will cast eighteen votes for Blaine. It has been decided not to place his name in nomination just yet, but simply wait till our turn is called and then cast our vote for him."

vote for him."

"How many votes do you think Blaine will get en the first builot?"

"Very few. We have begged all our support not to vote for Blaine on the first builot, and in fact not to vote for blin at all until it becomes plainly demonstrated that no other caudidate can get nominated. We could have hundreds of delegates right behind us from all over the States at the very first ballot, but we don't want to use them. You can say that California is

colors flying, and at the same time allow the partisans of the small candi-dates to prove our candidate is a politi-cal necessity. Blaine would not accept the nomination on the first ballox, but if it is proved that no one else can be nominated: that he is the only available man the party has, he will take it."
"Has Blaine ever so expressed him-

self, or ever given you so to under-stand?" "No, but these who are closest to him -his friends and his sons—have said

"JUST BEFORE THE BATTLE, JIMMY!"

The convention has now reached that stage at which all interest in its proceedings culminates. The decks have been cleared for action, and the battle is about to begin. What the first ballot will disclose is already known. The ab-sorbing curiosity is to know what the third or fourth or fifth ballots will show. The air of the convention hall is full of rumors, theories and blind guesses. Sherman loomed up last night because of the great enthusiasm which the Ohio Senator provoked. There was a feeling that Sherman would win to-day or not

The convention was called to order at 11.06 p.m., but nothing could be done at once, as many seats were vacant in the delegations and the crowds were push-Ing their way to sears in the galleries.

## HOSTILITIES COMMENCE.

At a few minutes past 11 o'clock, the convention was called to order by Chairman Estee, who, having completely lost his voice, called Senator Hiscock to the chair to preside over the session, which was formally opened with prayer by Rav. J. H. Worcester, of Chicago. In his invocation he prayed the spirit which would rule over the proceedings of the convention might be proceedings of the conve the spirit not of narrow but of broad patriotism. not of narrow partisanship,

chance of selection. The meetings were protracted up to nearly an hour within the time for the reassembling of the convention, and for this reason there were few delegates in the hall at 7 clock, Friends of Gresham were much elated at the recess taken this after-noon, and regarded it as favorable to the chances of their favorite. the chances of their fayorite. Recess was taken only after Benstor Miller, of New York, and Senator Quay, of Pennsylvania, had sent a message to Senator Farewell, of Illinois, requesting information as to whether such action would be agreeable to the Illinois delegation, and receiving an afferential really. able to the Illinois delegate. Specula-ceiving an affirmative reply. Speculatien is rife as to when the brake will come, and who will be the fortunate candidate, who will be the recipient of the votes flowing from the disintegra-tion of the solidity of the support of the favorite sons, but nothing positive or trustworthy of note can be gathered, and doubt still envelopes the situation.

in order to prevent an agreement between the Indiana and Illinois delegations to solidify the strength on either Harrison or Gresham, but it is also stated this action on the part of the New Yorkers is not to prevent a split among the Indiana number of votes from Harrison to Gresham.

## EVENING SESSION

The convention was called to order at 7.15 p. m. by Chairman Estee, who had recovered his voice to a certain degree.

The band struck up inspiring national airs, amongst them being "Dixis," airs, amongst them being "Dixie," which, however, did not create the enthusiasm, which its rendition excited at the recent St. Louis convention. "My Country "Tis of Thee" was more popular and was greeted with sppiaus», as was also "Marching Through Georgia." As the music ceased

DEFEW ASCHNDED THE PLATFORM and received an enthusiastic ovation

from the delegates and audience. He said:

"Mr. Chairman and Gentlemen of the Convention.—I came here as a delegate at-large from New York, neither expecting nor desiring to appear in this convention or before it in any other capacity. After my arrival, the reprecentatives of New York, by a unanimous vote, presented my name to this convention. It was done for reasons in belief of the course, it was only a short time since the organization of the Republican party that all divisions could be headed and all interests united in the Empire State. It would secure in that commonwealth the tritumph of the ticket under these conditions. Personal consideration and continues must be settled at the polls, not in a whirlwind of excitement, but the sensation of the New York and its exhibition was largely cheered. This fiag was held up by M. H. De Young and Henry G. Gage, of California. During all this, many ladies in the squitter was a valiable man, other things being equal. Cries for Gresham, Blaine and other candidates.) I do not care why you are for or who of the Republican party that all divisions could be headed and all interests united in the Empire State. It would secure in that commonwealth the tritumph of the ticket under these conditions. Personal consideration and continues are said to the contest of Chaunoy M. They have consented, and my only excuss in appearing here is to give en excuse for the appearance of my name, and to express my heartfelt thanks to the gentlemen from the States and Territories who have honored me by their suffrages. The gauses which have led to thus action on the part of the State of New York, now that their judgment has been arrived at, will have no heartburnings among the people in that State. The delegation will go home to their constituency and find it unanimous in support of whoever will be the nomines of this convention. (Applause.)

The labor to se raw material is ignorant labor, but the moment raw material is worked into fabrics and fashioned into beautiful shape, that requires intelligence. In consequence of the greater number of industries we have in the United States, the more intelligent our population will be. (Cheers.) Another reason is that ordinary labor is always cheap. Labor commands a price in proportion that the mind is mixed with muscle, in the proportion that the mind is mixed with muscle in the proportion that the mind is mixed with muscle in the proportion that the mind is mixed with muscle in the proportion that the mind is mixed with muscle in the proportion that the mind is mixed with muscle in the proportion that the mind is mixed with muscle in the proportion that thought is mingled with effort. The people who want us to raise the raw material for a foreign land, England, to manufacture, simply vote for poverty and the ignorance of Americans (cheers), and for the wealth and intelligencs of Great Britain. (Cheers.) I am in favor of Britain. (Cheers.) I am in favor of the protection of American industries because it will develop American brains because under that system we can because under that system we can raise the most beautiful things beneath the stars—great meu and great women. (Tamultuous applause.) Where men pursue but one industry they become stupid. Where industries are developed, every part of the brain is developed and we have the use for every aptitude, for every talent and for every kind of genius. I am in favor of American production, because under that policy we have become the richest nation on the globe. (Cheers.) I am in favor of that policy because we are the most
